-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

REMARKS

Applicants' amendment dated June 8, 2006 responding to the March 8, 2006 Office Action provided in the rejection of claims 1-9, wherein claims 1, 2, 6, 7, 8, and 9 have been amended. Claims 1-9 remain pending in the application and which have been fully considered by the examiner.

The Examiner withdraws the rejection to claim 1-2, and 6 under 35 USC § 112, second paragraph, corresponding to Applicants' amendment.

PRIORITY

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

CLAIM REJECTIONS - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

Art Unit: 2129

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuzaki et al (U. S. Patent No. 5,357,439), hereafter Matsuzaki, as applied to claims 1-9 in the previous Office Action, and further in view of Jerome D. Johnson (U. S. Patent No. 5,625,776), hereafter Johnson.

Matsuzaki teaches substantially all of applicants' claimed invention (see Office Action dated March 8, 2006 from page 3 to page 9). Matsuzaki fails to disclose "*a composite apparatus which is a copying machine, a facsimile machine, a printing machine, or a composite machine comprising multiple of said machines.*"

Johnson teaches a system to generate customized proposals for computers, related peripherals, and copy machines (Johnson, col. 1, lines 20-21, col. 5, lines 1-3, lines 14-16).

It would have been obvious at the time the invention was made to a person having ordinary skill in the art to combine Matsuzaki with Johnson. The motivation for doing so would

Art Unit: 2129

be to customized each proposal for a particular customer, each proposal will have a much more persuasive effect in selling the product. Also, if any information about the product changes, such as prices of options, the system information stored in a database may be simply changed in order to accommodate the new information (Johnson, col. 2, lines 40-45).

CONCLUSION

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
